

# 2024 With One Voice Member Survey

## National Results

Thanks to everyone for your help completing the 2024 Member Survey. We are so thrilled with the incredible response we've had, and the amazing support we have received from the choirs. We hope this report helps everyone feel a great sense of pride for the work we do together in our communities all across Australia.

## Survey Response

**79%** Women  
**20%** Men  
**<1%** Other

## Improving the lives of our members

**97%** of people **feel better** after choir than before.

“ I can just let go of my everyday duties as an employee, mum, wife and friend and fill up my well-being cup to pour from. ”

## Health and well-being through singing

**84%** say that choir has had a **positive impact on their mental health.**

“ Mentally, I feel much happier and less stressed. Choir gives me something to look forward to each week. ”

## Community connection and reducing loneliness

**88%** said their **sense of community** has improved since joining their choir.

**68%** of respondents **feel less lonely or isolated** since joining their choir.

## Inspiring community music leaders

**95%** said their **conductor** is “amazing” or “very good”.

“ I enjoy the structure and flow of the conductor; the approach is refreshing and enjoyable. I’m not stressed when I come to choir ”
